Mori Hospitality Corporation

Mori Hospitality Corporation certified as a 2024 Health and Productivity Management Outstanding Organization

Mori Hospitality Corporation has been recognized in the large enterprise category of the Certified Health and Productivity Management Organization Recognition Program, a cooperative initiative by Japan's Ministry of Economy, Trade and Industry (METI) and Nippon Kenko Kaigi.

The program certifies corporations that practice particularly excellent health management. The goal is to publicize companies that engage in health management so that corporations that think about employee health management from a managerial perspective and engage in it strategically will receive recognition from society.

We will continue to focus on developing human resources and creating a comfortable work environment, as well as promoting health management initiatives, in line with our corporate philosophy passage, "Aiming to be the best hospitality company in the world."
